

The **North Okaloosa Historical Association** is composed largely of citizens in our local area. The Board of Directors functions as the administrative arm of the association. Naturally, our primary focus is on our county but we support our larger panhandle area, too, via additional programs and events. If you are interested in our continuing efforts to document and preserve the history and culture of our area, consider joining the association. There is a minimal membership fee. And, there is no time commitment required of you. Download the membership application available on this website.

### **NOHA Board of Directors**
